**Here's the difference between most interest/checking plans and Central Fidelity's.**

Ours puts more money in your hands.

It does this by paying you more interest on your money: 5¼%, compounded continuously. Other plans don't. Unless you consistently keep big balances, many interest/checking plans pay only 3% or even 2%. And if your balance falls below $500, they pay you nothing at all.

Central Fidelity's Interest/Checking Plan pays 5¼% annual interest no matter what your balance is, and we compound continuously to give you an even higher annual yield. With a monthly balance of $500, our plan is also free of service fees.

If you think all interest/checking plans are alike, come into any Central Fidelity office and make a comparison. We have the interest/checking plan you'll want to get your hands on.

| Minimum Monthly Balance | Monthly Service Fee | Annual Percentage Rate | Effective Annual Yield |
|---|---|---|---|
| $500 and Above | None | 5.25% | 5.39% |
| $499 and Below | $6 | 5.25% | 5.39% |
